

W R . I . T . E !

WRiting Is That Easy!

The WR.I.T.E! Strategy For Compositions

I. The WR.I.T.E! Workshop

Based on the new MOE Primary English syllabus, the W.R.I.T.E Workshop acquaints your child with the three-picture composition format for PSLE from 2015. Delivered by NIE-qualified teachers in small groups, each session bustles seamlessly with interesting and strategic writing activities catering to beginner, intermediate and advanced writers. Students gain confidence as they learn how to:

- ✓ plan and develop their stories creatively from different perspectives
- ✓ organise and express their ideas coherently and cohesively
- ✓ use vivid, descriptive words and phrases for common composition topics

II. The WR.I.T.E! Programme

The W.R.I.T.E! Programme, one of our signature in-house offerings, is designed to take budding writers to greater heights in crafting convincing A* compositions. Adopting a systematic and thematic approach, these weekly writing tutorials teach interesting plot structures, literary devices and effective use of language.

The W.R.I.T.E! Programme is an excellent complement to our highly popular English Language classes. It is available for primary one to six levels.

The WR.I.T.E! Workshop
