

COURSE  
SYNOPSIS

This is a highly popular course for secondary school students. Comprising of 12 lessons, this is an excellent skill-based training course for Secondary students seeking mastery of the knowledge and dexterity required for the GCE 'O' Level English Comprehension Paper. Students learn in small groups arranged according to ability. They work with lesson materials that are specially tailored to their ability levels.

Each lesson comprehensively trains the students to *identify* specific comprehension question-types and *master effective answering techniques* to tackle them confidently. Besides narrative and non-narrative texts, there is ample practice on Figurative Language, a Literature-infused component essential for unpacking questions on Language Use for Impact and Visual Texts.

The ten question-types covered in this course have repeatedly featured in past years' comprehension papers:

1

The Factual  
Questions

2

The Inferential  
Questions

3

The Language Use  
for Impact Question

4

The Use Your Own  
Words Question

5

The Vocabulary In  
Context Question

6

The Proof of  
Evidence Question

7

The Global  
Question

8

The Visual  
Text Question

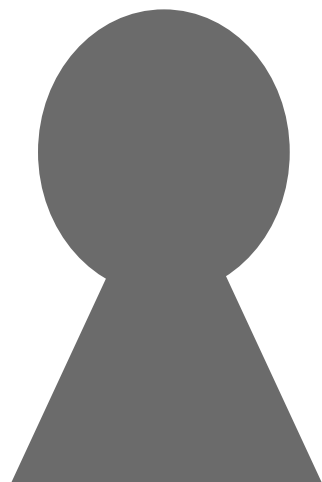

9

The Summary  
Question

10

Listening  
Comprehension Skills
